AFFIDAVIT IN SUPPORT OF AN APPLICATION UNDER RULE 41 FOR A WARRANT TO SEARCH AND SEIZE

I, being first duly sworn, hereby depose and state as follows:

INTRODUCTION AND AGENT BACKGROUND

- 1. The government is conducting a criminal investigation concerning the improper removal and storage of classified information in unauthorized spaces, as well as the unlawful concealment or removal of government records. The investigation began as a result of a referral the United States National Archives and Records Administration (NARA) sent to the United States Department of Justice (DOJ) on February 9, 2022, hereinafter, "NARA Referral." The NARA Referral stated that on January 18, 2022, in accordance with the Presidential Records Act (PRA), NARA received from the office of former President DONALD J. TRUMP, hereinafter "FPOTUS," via representatives, fifteen (15) boxes of records, hereinafter, the "FIFTEEN BOXES." The FIFTEEN BOXES, which had been transported from the FPOTUS property at 1100 S Ocean Blvd, Palm Beach, FL 33480, hereinafter, the "PREMISES," a residence and club known as "Mar-a-Lago," further described in Attachment A, were reported by NARA to contain, among other things, highly classified documents intermingled with other records.
- 2. After an initial review of the NARA Referral, the Federal Bureau of Investigation (FBI) opened a criminal investigation to, among other things, determine how the documents with

classification markings and records were removed from the White House (or any other authorized location(s) for the storage of classified materials) and came to be stored at the PREMISES; determine whether the storage location(s) at the PREMISES were authorized locations for the storage of classified information; determine whether any additional classified documents or records may have been stored in an unauthorized location at the PREMISES or another unknown location, and whether they remain at any such location; and identify any person(s) who may have removed or retained classified information without authorization and/or in an unauthorized space.

3. The FBI's investigation has established that documents bearing classification
markings, which appear to contain National Defense Information (NDI), were among the
materials contained in the FIFTEEN BOXES and were stored at the PREMISES in an
unauthorized location.
Further, there is probable cause to believe that additional documents that contain
classified NDI or that are Presidential records subject to record retention requirements currently
remain at the PREMISES. There is also probable cause to believe that evidence of obstruction
will be found at the PREMISES.
4. I am a Special Agent with the FBI assigned to the Washington Field Office
. During this time, I have received training
at the FBI Academy located at Quantico, Virginia, specific to counterintelligence and espionage
investigations.

Based on my experience and training. I am familiar with efforts used to unlawfully collect, retain, and disseminate sensitive government information, including classified NDI.

- 5. I make this affidavit in support of an application under Rule 41 of the Federal Rules of Criminal Procedure for a warrant to search the premises known as 1100 S Ocean Blvd, Palm Beach, FL 33480, the "PREMISES," as further described in Attachment A, for the things described in Attachment B.
- 6. Based upon the following facts, there is probable cause to believe that the locations to be searched at the PREMISES contain evidence, contraband, fruits of crime, or other items illegally possessed in violation of 18 U.S.C. §§ 793(e), 1519, or 2071.

SOURCE OF EVIDENCE

7. The facts set forth in this affidavit are based on my personal knowledge, knowledge obtained during my participation in this investigation, and information obtained from other FBI and U.S. Government personnel. Because this affidavit is submitted for the limited purpose of establishing probable cause in support of the application for a search warrant, it does not set forth each and every fact that I, or others, have learned during the course of this investigation.

STATUTORY AUTHORITY AND DEFINITIONS

8. Under 18 U.S.C. § 793(e), "[w]hoover having unauthorized possession of, access to, or control over any document . . . or information relating to the national defense which information the possessor has reason to believe could be used to the injury of the United States or to the advantage of any foreign nation, willfully communicates, delivers, transmits or causes to be communicated, delivered, or transmitted" or attempts to do or causes the same "to any person not entitled to receive it, or willfully retains the same and fails to deliver it to the officer or employee

of the United States entitled to receive it" shall be fined or imprisoned not more than ten years, or both.

- 9. Under Executive Order 13526, information in any form may be classified if it: (1) is owned by, produced by or for, or is under the control of the United States Government; (2) falls within one or more of the categories set forth in the Executive Order [Top Secret, Secret, and Confidential]; and (3) is classified by an original classification authority who determines that its unauthorized disclosure reasonably could be expected to result in damage to the national security.
- 10. Where such unauthorized disclosure could reasonably result in damage to the national security, the information may be classified as "Confidential" and must be properly safeguarded. Where such unauthorized disclosure could reasonably result in serious damage to the national security, the information may be classified as "Secret" and must be properly safeguarded. Where such unauthorized disclosure could reasonably result in exceptionally grave damage to the national security, the information may be classified as "Top Secret" and must be properly safeguarded.
- 11. Sensitive Compartmented Information (SCI) means classified information concerning or derived from intelligence sources, methods, or analytical processes, which is required to be handled within formal access control systems.
- 12. Special Intelligence, or "SI," is an SCI control system designed to protect technical and intelligence information derived from the monitoring of foreign communications signals by other than the intended recipients. The SI control system protects SI-derived information and information relating to SI activities, capabilities, techniques, processes, and procedures.
- 13. HUMINT Control System, or "HCS," is an SCI control system designed to protect intelligence information derived from clandestine human sources, commonly referred to as

"human intelligence." The HCS control system protects human intelligence-derived information and information relating to human intelligence activities, capabilities, techniques, processes, and procedures.

- 14. Foreign Intelligence Surveillance Act, or "FISA," is a dissemination control designed to protect intelligence information derived from the collection of information authorized under the Foreign Intelligence Surveillance Act by the Foreign Intelligence Surveillance Court, or "FISC."
- 15. Classified information may be marked as "Not Releasable to Foreign Nationals/Governments/US Citizens," abbreviated "NOFORN," to indicate information that may not be released in any form to foreign governments, foreign nationals, foreign organizations, or non-U.S. citizens without permission of the originator.
- 16. Classified information may be marked as "Originator Controlled," abbreviated "ORCON." This marking indicates that dissemination beyond pre-approved U.S. entities requires originator approval.
- determined by an appropriate United States Government official to be eligible for access, and who possess a "need to know." Among other requirements, in order for a person to obtain a security clearance allowing that person access to classified United States Government information, that person is required to and must agree to properly protect classified information by not disclosing such information to persons not entitled to receive it, by not unlawfully removing classified information from authorized storage facilities, and by not storing classified information in unauthorized locations. If a person is not eligible to receive classified information, classified information may not be disclosed to that person. In order for a foreign government to receive

access to classified information, the originating United States agency must determine that such release is appropriate.

- 18. Pursuant to Executive Order 13526, classified information contained on automated information systems, including networks and telecommunications systems, that collect, create, communicate, compute, disseminate, process, or store classified information must be maintained in a manner that: (1) prevents access by unauthorized persons; and (2) ensures the integrity of the information.
- 19. 32 C.F.R. Parts 2001 and 2003 regulate the handling of classified information. Specifically, 32 C.F.R. § 2001.43, titled "Storage," regulates the physical protection of classified information. This section prescribes that Secret and Top Secret information "shall be stored in a [General Services Administration]-approved security container, a vault built to Federal Standard (FHD STD) 832, or an open storage area constructed in accordance with § 2001.53." It also requires periodic inspection of the container and the use of an Intrusion Detection System, among other things.

20. Under 18 U.S.C. § 1519;

21. Under 18 U.S.C. § 2071:

- (b) Whoever, having the custody of any such record, proceeding, map, book, document, paper, or other thing, willfully and unlawfully conceals, removes, mutilates, obliterates, falsifies, or destroys the same, shall be fined under this title or imprisoned not more than three years, or both; and shall forfeit his office and be disqualified from holding any office under the United States. As used in this subsection, the term "office" does not include the office held by any person as a retired officer of the Armed Forces of the United States.

PROBABLE CAUSE

NARA Referral

24. On February 9, 2022, the Special Agent in Charge of NARA's Office of the

Inspector General sent the NARA Referral via email to DOJ. The NARA Referral stated that according to NARA's White House Liaison Division Director, a preliminary review of the FIFTEEN BOXES indicated that they contained "newspapers, magazines, printed news articles, photos, miscellaneous print-outs, notes, presidential correspondence, personal and post-presidential records, and 'a lot of classified records.' Of most significant concern was that highly classified records were unfoldered, intermixed with other records, and otherwise unproperly [sic] identified."

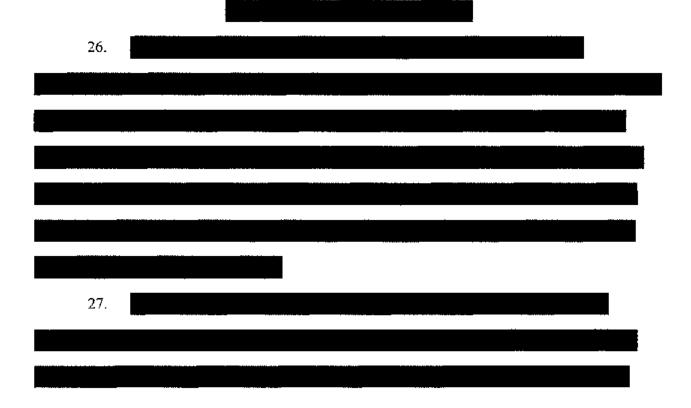

25. On February 18, 2022, the Archivist of the United States, chief administrator for NARA, stated in a letter to Congress's Committee on Oversight and Reform Chairwoman The Honorable Carolyn B. Maloney, "NARA had ongoing communications with the representatives of former President Trump throughout 2021, which resulted in the transfer of 15 boxes to NARA in January 2022.... NARA has identified items marked as classified national security information within the boxes." The letter also stated that, "[b]ccause NARA identified classified information in the boxes, NARA staff has been in communication with the Department of Justice." The letter was made publicly available at the following uniform resource locator (URL): https://www.archives.gov/files/foia/ferricro-response-to-02.09.2022-maloney-letter.02.18.2022.pdf. The FIFTEEN BOXES Provided to NARA Contain Classified Information

47. From May 16-18, 2022, FBI agents conducted a preliminary review of the FIFTEEN BOXES provided to NARA and identified documents with classification markings in fourteen of the FIFTEEN BOXES. A preliminary triage of the documents with classification markings revealed the following approximate numbers: 184 unique documents bearing classification markings, including 67 documents marked as CONFIDENTIAL, 92 documents marked as SECRET, and 25 documents marked as TOP SECRET. Further, the FBI agents observed markings reflecting the following compartments/dissemination controls: HCS, FISA, ORCON, NOFORN, and SI. Based on my training and experience, I know that documents classified at these levels typically contain NDI. Several of the documents also contained what appears to be FPOTUS's handwritten notes.

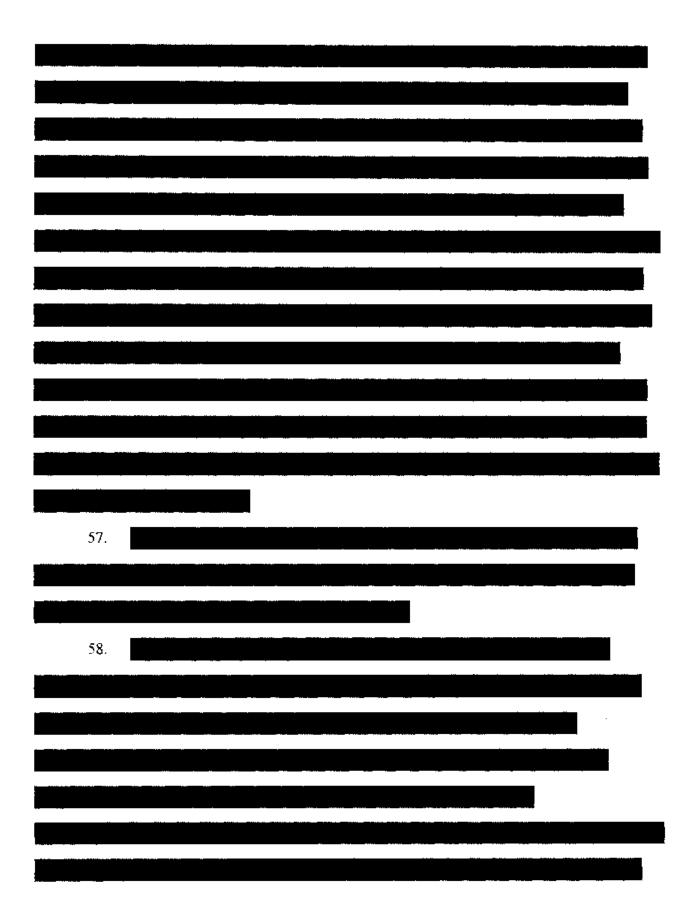

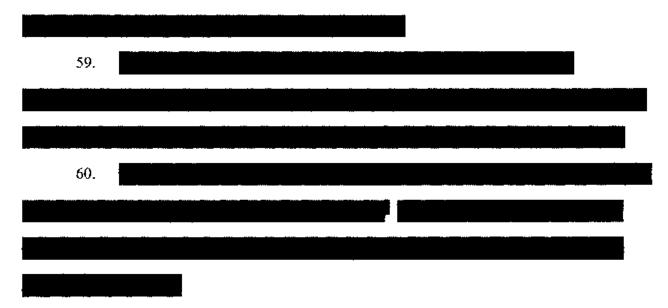

In the second such letter, which is attached as Exhibit 1, FPOTUS COUNSEL 1 asked DOJ to consider a few "principles," which include FPOTUS COUNSEL 1's claim that a President has absolute authority to declassify documents. In this letter, FPOTUS COUNSEL 1 requested, among other things, that "DOJ provide this letter to any judicial officer who is asked to rule on any motion pertaining to this investigation, or on any application made in connection with any investigative request concerning this investigation." 53. Patel alleged that such reports were misleading because FPOTUS had declassified the materials at issue.

61. On June 8, 2022, DOJ COUNSEL sent FPOTUS COUNSEL 1 a letter, which reiterated that the PREMISES are not authorized to store classified information and requested the preservation of the STORAGE ROOM and boxes that had been moved from the White House to the PREMISES. Specifically, the letter stated in relevant part:

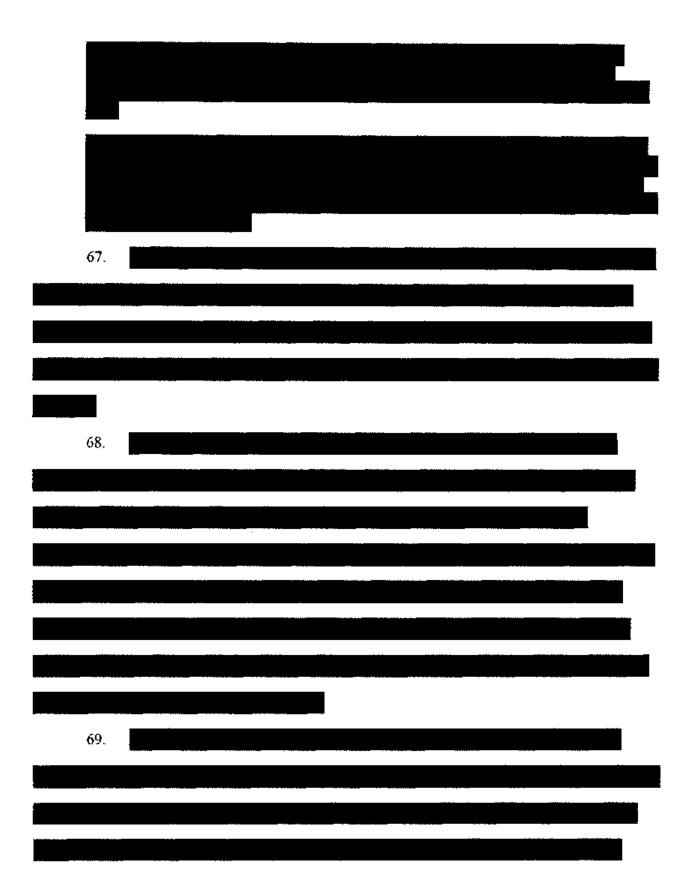

As I previously indicated to you. Mar-a-Lago does not include a secure location authorized for the storage of classified information. As such, it appears that since the time classified documents were removed from the secure facilities at the White House and moved to Mar-a-Lago on or around January 20, 2021, they have not been handled in an appropriate manner or stored in an appropriate location. Accordingly, we ask that the room at Mar-a-Lago where the documents had been stored be secured and that all of the boxes that were moved from the White House to Mar-a-Lago (along with any other items in that room) be preserved in that room in their current condition until further notice.

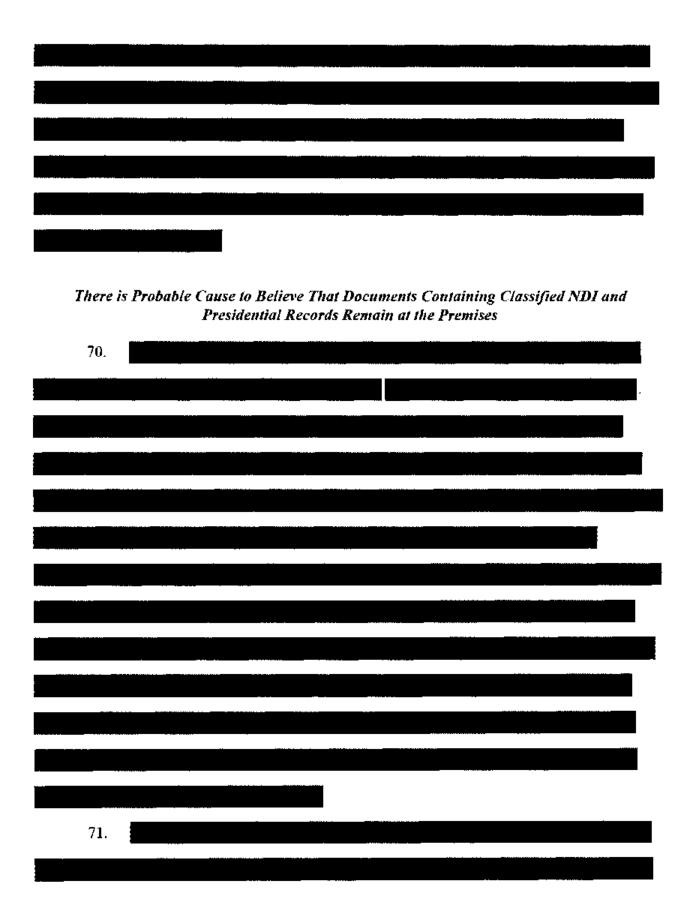

² 18 U.S.C. § 793(e) does not use the term "classified information," but rather criminalizes the unlawful retention of "information relating to the national defense." The statute does not define "information related to the national defense," but courts have construed it broadly. See Gorin v. United States, 312 U.S. 19, 28 (1941) (holding that the phrase "information relating to the national defense" as used in the Espionage Act is a "generic concept of broad connotations, referring to the military and naval establishments and the related activities of national preparedness"). In addition, the information must be "closely held" by the U.S. government. See United States v. Squillacote, 221 F.3d 542, 579 (4th Cir. 2000) ("[I]nformation made public by the government as well as information never protected by the government is not national defense information."); United States v. Morison, 844 F.2d 1057, 1071-72 (4th Cir. 1988). Certain courts have also held that the disclosure of the documents must be potentially damaging to the United States. See Morison, 844 F.2d at 1071-72.

77. Based upon this investigation, I believe that the STORAGE ROOM, FPOTUS's residential suite, Pine Hall, the "45 Office," and other spaces within the PREMISES are not currently authorized locations for the storage of classified information or NDI. Similarly, based upon this investigation, I do not believe that any spaces within the PREMISES have been authorized for the storage of classified information at least since the end of FPOTUS's Presidential Administration on January 20, 2021.

	78.	As described above, evidence of the SUBJECT OFFENSES has been stored in
multipl	e locati	ions at the PREMISES.

Accordingly, this affidavit seeks authorization to search the "45 Office" and all storage rooms and

any other rooms or locations where boxes or records may be stored within the PREMISES, as further described in Attachment A. The PREMISES is currently closed to club members for the summer; however, as specified in Attachment A, if at the time of the search, there are areas of the PREMISES being occupied, rented, or used by third parties, and not otherwise used or available to be used by FPOTUS and his staff, the search would not include such areas.

CONCLUSION

79. Based on the foregoing facts and circumstances, I submit that probable cause exists to believe that evidence, contraband, fruits of crime, or other items illegally possessed in violation 18 U.S.C. §§ 793(e), 2071, or 1519 will be found at the PREMISES. Further, I submit that this affidavit supports probable cause for a warrant to search the PREMISES described in Attachment A and seize the items described in Attachment B.

REQUEST FOR SEALING

80. It is respectfully requested that this Court issue an order scaling, until further order of the Court, all papers submitted in support of this application, including the application and search warrant. I believe that scaling this document is necessary because the items and information to be seized are relevant to an ongoing investigation and the FBI has not yet identified all potential criminal confederates nor located all evidence related to its investigation. Premature disclosure of the contents of this affidavit and related documents may have a significant and negative impact on the continuing investigation and may severely jeopardize its effectiveness by allowing criminal parties an opportunity to flee, destroy evidence (stored electronically and otherwise), change patterns of behavior, and notify criminal confederates.

$\frac{SEARCH\ PROCEDURES\ FOR\ HANDLING\ POTENTIAL\ ATTORNEY-CLIENT}{PRIVILEGED\ INFORMATION}$

The following procedures will be followed at the time of the search in order to protect against disclosures of attorney-client privileged material:

- 81. These procedures will be executed by: (a) law enforcement personnel conducting this investigation (the "Case Team"); and (b) law enforcement personnel not participating in the investigation of the matter, who will search the "45 Office" and be available to assist in the event that a procedure involving potentially attorney-client privileged information is required (the "Privilege Review Team").
- 82. The Case Team will be responsible for searching the **TARGET PREMISES**. However, the Privilege Review Team will search the "45 Office" and conduct a review of the seized materials from the "45 Office" to identify and segregate documents or data containing potentially attorney-client privileged information.
- 83. If the Privilege Review Team determines the documents or data are not potentially attorney-client privileged, they will be provided to the law-enforcement personnel assigned to the investigation. If at any point the law-enforcement personnel assigned to the investigation subsequently identify any data or documents that they consider may be potentially attorney-client privileged, they will cease the review of such identified data or documents and refer the materials to the Privilege Review Team for further review by the Privilege Review Team.
- 84. If the Privilege Review Team determines that documents are potentially attorney-client privileged or merit further consideration in that regard, a Privilege Review Team attorney may do any of the following: (a) apply ex parte to the court for a determination whether or not the documents contain attorney-client privileged material; (b) defer seeking court intervention and

continue to keep the documents inaccessible to law-enforcement personnel assigned to the investigation; or (c) disclose the documents to the potential privilege holder, request the privilege holder to state whether the potential privilege holder asserts attorney-client privilege as to any documents, including requesting a particularized privilege log, and seek a ruling from the court regarding any attorney-client privilege claims as to which the Privilege Review Team and the privilege-holder cannot reach agreement.

Re: Presidential Records Investigation

Dear Jay:

I write on behalf of President Donald J. Trump regarding the above-referenced matter.

Public trust in the government is low. At such times, adherence to the rules and long-standing policies is essential. President Donald J. Trump is a leader of the Republican Party. The Department of Justice (DOJ), as part of the Executive Branch, is under the control of a President from the opposite party. It is critical, given that dynamic, that every effort is made to ensure that actions by DOJ that may touch upon the former President, or his close associates, do not involve politics.

There have been public reports about an investigation by DOJ into Presidential Records purportedly marked as classified among materials that were once in the White House and unknowingly included among the boxes brought to Mar-a-Lago by the movers. It is important to emphasize that when a request was made for the documents by the National Archives and Records Administration (NARA), President Trump readily and voluntarily agreed to their transfer to NARA. The communications regarding the transfer of boxes to NARA were friendly, open, and straightforward. President Trump voluntarily ordered that the boxes be provided to NARA. No legal objection was asserted about the transfer. No concerns were raised about the contents of the boxes. It was a voluntary and open process.

Unfortunately, the good faith demonstrated by President Trump was not matched once the boxes arrived at NARA. Leaks followed. And, once DOJ got involved, the leaks continued. Leaks about any investigation are concerning. Leaks about an investigation that involve the residence of a former President who is still active on the national political scene are particularly troubling.

Jay I. Bratt May 25, 2022 Page 2 of 3

It is important to note a few bedrock principles:

(1) A President Has Absolute Authority To Declassify Documents.

Under the U.S. Constitution, the President is vested with the highest level of authority when it comes to the classification and declassification of documents. See U.S. Const., Art. II, § 2 ("The President [is] Commander in Chief of the Army and Navy of the United States[.]"). His constitutionally-based authority regarding the classification and declassification of documents is unfettered. See Navy v. Egan, 484 U.S. 518, 527 (1988) ("[The President's] authority to classify and control access to information bearing on national security . . . flows primarily from this constitutional investment of power in the President and exists quite apart from any explicit congressional grant.").

(2) Presidential Actions Involving Classified Documents Are Not Subject To Criminal Sanction.

Any attempt to impose criminal liability on a President or former President that involves his actions with respect to documents marked classified would implicate grave constitutional separation-of-powers issues. Beyond that, the primary criminal statute that governs the unauthorized removal and retention of classified documents or material *does not apply* to the President. That statute provides, in pertinent part, as follows:

Whoever, being an officer, employee, contractor, or consultant of the United States, and, by virtue of his office, employment, position, or contract, becomes possessed of documents or materials containing classified information of the United States, knowingly removes such documents or materials without authority and with the intent to retain such documents or materials at an unauthorized location shall be fined under this title or imprisoned for not more than five years, or both.

18 U.S.C. § 1924(a). An element of this offense, which the government must prove beyond a reasonable doubt, is that the accused is "an officer, employee, contractor, or consultant of the United States." The President is none of these. See Free Enter. Fund v. Pub. Co. Acct. Oversight Bd., 561 U.S. 477, 497–98 (2010) (citing U.S. Const., Art. II, § 2, cl. 2) ("The people do not vote for the 'Officers of the United States."); see also Melcher v. Fed. Open Mkt. Comm., 644 F. Supp. 510, 518–19 (D.D.C. 1986), aff'd, 836 F.2d 561 (D.C. Cir. 1987) ("[a]n officer of the United States can only be appointed by the President, by and with the advice and consent of the Senate, or by a court of law, or the head of a department. A person who does not derive his position from one of these sources is not an officer of the United States in the sense of the Constitution."). Thus, the statute does not apply to acts by a President.

(3) DOJ Must Be Insulated From Political Influence.

According to the Inspector General of DOJ, one of the top challenges facing the Department is the public perception that DOJ is influenced by politics. The report found that "[o]ne important strategy that can build public trust in the Department is to ensure adherence to policies and procedures designed to protect DOJ from accusations of political influence or partial application of the law." See https://oig.justice.gov/reports/top-management-and-performance-challenges-facing-department-justice-2021 (last visited May 25, 2022). We request that DOJ adhere to long-standing policies and procedures regarding communications between DOJ and the White House regarding pending investigative matters which are designed to prevent political influence in DOJ decision-making.

(4) DOJ Must Be Candid With Judges And Present Exculpatory Evidence.

Long-standing DOJ policy requires that DOJ attorneys be candid in representations made to judges. Pursuant to those policies, we request that DOJ provide this letter to any judicial officer who is asked to rule on any motion pertaining to this investigation, or on any application made in connection with any investigative request concerning this investigation.

The official policy of DOJ further requires that prosecutors present exculpatory evidence to a grand jury. Pursuant to that policy, we request that DOJ provide this letter to any grand jury considering evidence in connection with this matter, or any grand jury asked to issue a subpoena for testimony or documents in connection with this matter.

Thank you for your attention to this request.

With best regards,

Emhum

UNITED STATES' SEALED, EX PARTE MEMORANDUM OF LAW REGARDING PROPOSED REDACTIONS

Pursuant to this Court's August 18 and August 22, 2022 orders, the United States respectfully submits this sealed, *ex parte* memorandum of law setting forth the justifications for its proposed redactions to the affidavit submitted to the Court on August 5, 2022, in support of the government's application for a search warrant at a property of former President Donald J. Trump. *See* Docket Entries ("D.E.") 1, 74, 80. For the reasons explained below, the materials the government marked for redaction in the attached document must remain scaled to protect the safety and privacy of a significant number of civilian witnesses, in addition to law enforcement personnel, as well as to protect the integrity of the ongoing investigation and to avoid disclosure of grand jury material in violation of the Federal Rules of Criminal Procedure.

Procedural Background

On August 8, 2022, the Department of Justice executed a search warrant, issued by this Court upon the requisite finding of probable cause, at the premises located at 1100 S. Ocean Blvd., Palm Beach, Florida 33480, a property of former President Trump. Given the circumstances presented in this matter and the public interest in transparency, and in the wake

Case 9:22-mj-08332-BER Document 89 *SEALED* Entered on FLSD Docket 08/25/2022 Page 3 of 13

The Court found that disclosure of the Affidavit would likely result in witnesses being "quickly and broadly identified over social media and other communication channels, which could lead to them being harassed and intimidated," *Id.* at 9. The Court gave "great weight" to "the significant likelihood that unsealing the Affidavit would harm legitimate privacy interests," with disclosures potentially serving to "impede the ongoing investigation through obstruction of justice and witness intimidation or retaliation." *Id.* at 9-10. And the Court found that the Affidavit contains "critically important and detailed investigative facts: highly sensitive information about witnesses . . .; specific investigative techniques; and information required to be kept under scal pursuant to Federal Rule of Criminal Procedure 6(e)," the disclosure of which "would detrimentally affect this investigation and future investigations." *Id.* at 10. However, noting that the warrant involves "matters of significant public concern," *id.*, the Court concluded that "the present record" does not "justifly] keeping the *entire* Affidavit under seal," *id.* at 13 (emphasis added).

Argument

The Redacted Materials Must Remain Under Seal

As the Court has found, "[p]rotecting the integrity and secrecy of an ongoing criminal investigation is a well-recognized compelling governmental interest." D.E. 80 at 6 (citing, inter alia, United States v. Valenti, 986 F.2d 708, 714 (11th Cir. 1993)). Indeed, "[a]t the pre-indictment stage, the Government's need to conceal the scope and direction of its investigation, as well as its investigative sources and methods, is at its zenith." D.E. 80 at 7-8 (citing Blalock v. United States, 844 F.2d 1546, 1550 n.5 (11th Cir. 1988)). Counsel for the Intervenors have also acknowledged that certain portions of the affidavit must likely remain

of the former President's public confirmation of the search and his representatives' public characterizations of the materials sought, the government moved to unseal the search warrant, its attachments, and the Property Receipt summarizing materials seized, and this Court granted the government's motion. D.E. 18, 41.

A number of news media organizations and other entities (the "Intervenors") have filed motions to unseal these and other materials associated with the search warrant, including the affidavit. The government submitted its omnibus response to those motions on August 15, 2022. D.E. 59. The Court conducted a hearing on August 18, 2022, at the conclusion of which the Court directed the government to file under seal its proposed redactions to the affidavit and a legal memorandum setting forth the justifications for the proposed redactions. D.E. 74.

In a subsequent order, the Court noted that the government "has met its burden of showing good cause/a compelling interest that overrides any public interest in unsealing the full contents of the Affidavit." D.E. 80 at 12. In that order, the Court observed that the obstruction and threat concerns raised by the government were "not hypothetical in this case." Id at 8. In particular, the Court cited its prior finding of probable cause that a statute prohibiting obstruction of justice has been violated, and further relied upon the post-search increase in specific threats of violence to identified FBI agents, overall violent threats to FBI personnel, and the armed attack on the FBI office in Cincinnati. Id. at 8-9.

¹ Based on the government's and the Intervenors' agreement that certain additional documents (namely, the government's motion to seal, the Court's sealing order, and two cover sheets) could be publicly released with minor reductions to protect government personnel, the Court also ordered those documents released. D.E. 74.

under seal to protect information such as witness identities and investigative sources and methods. Hrg. Tr. at 35.

The government has carefully reviewed the affidavit and has identified five categories of information that must remain under seal in order to protect the safety of multiple civilian witnesses whose information was included throughout the affidavit and contributed to the finding of probable cause, as well as the integrity of the ongoing investigation. In the attached chart, the government has identified each category that applies to information the government proposes to redact. Some information falls within more than one category. The categories, described further below, are (1) information from a broad range of civilian witnesses who may be subject to "witness intimidation or retaliation," D.E. 80 at 9; (2) information regarding investigative avenues and techniques that could provide a roadmap for potential ways to obstruct the investigation, *id.* at 9-10; (3) information whose disclosure is prohibited under Rule 6(e) of the Federal Rules of Criminal Procedure ("Rule 6(e)"), such as grand jury subpoenas, testimony, and related material, *id.* at 10; (4) information whose disclosure could risk the safety of law enforcement personnel, *id.* at 9; and (5) information whose disclosure could harm "legitimate privacy interests" of third parties, *id.*

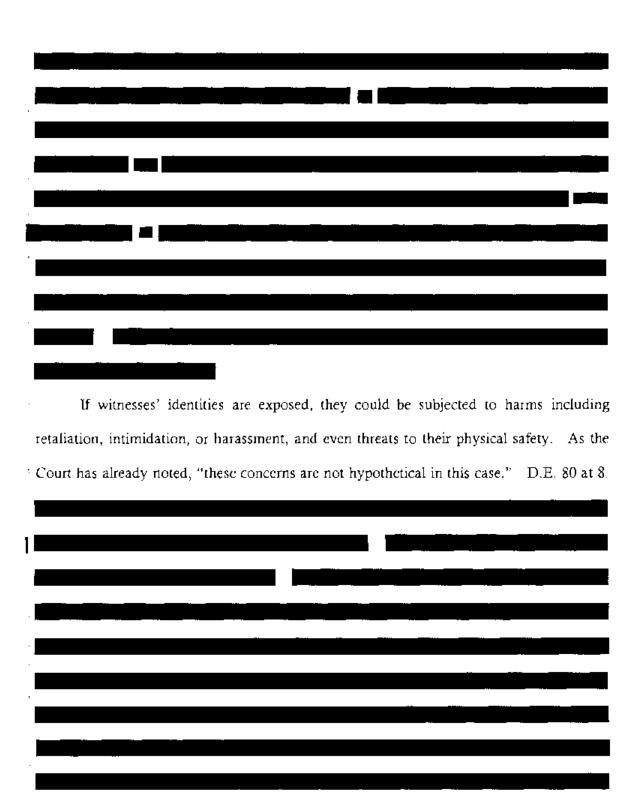

1. Witness Information

First and foremost, the government must protect the identity of witnesses at this stage of the investigation to ensure their safety. As this Court noted, if information relating to witnesses were disclosed, "it is likely that even witnesses who are not expressly named in the Affidavit would be quickly and broadly identified over social media and other communication channels, which could lead to them being harassed and intimidated." D.E. 80 at 9. See also,

Case 9:22-mj-08332-BER Document 89 *SEALED* Entered on FLSD Docket 08/25/2022 Page 5 of 13

e.g., Douglas Oil Co. of Cal. v. Petrol Stops Nw., 441 U.S. 211, 219 (1979) (describing the risk tha
"prospective witnesses would be hesitant to come forward voluntarily, knowing that those
against whom they testify would be aware of that testimony"); United States v. Steinger, 626 F
Supp. 2d 1231, 1235 (S.D. Fla. 2009) (similar).
Information in
the affidavit could be used to identify many, if not all, of these witnesses. For example,

Case 9:22-mj-08332-BER Document 89 *SEALED* Entered on FLSD Docket 08/25/2022 Page 6 of 13

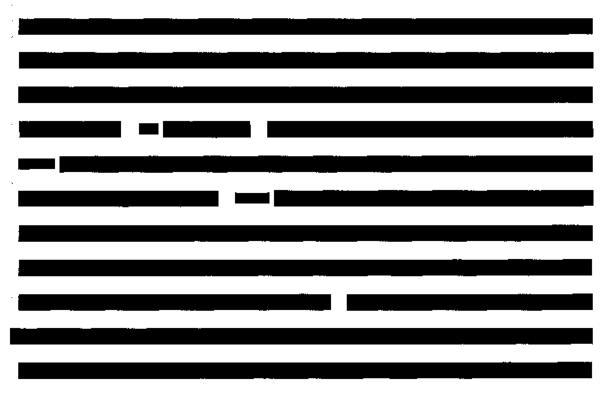

Meanwhile, FBI agents who have been publicly identified in connection with this investigation have received repeated threats of violence from members of the public. Exposure of witnesses' identities would likely erode their trust in the government's investigation, and it would almost certainly chill other potential witnesses from coming forward in this investigation and others.

2. Investigation "Road Man"

As Judge Jordan explained in *Steinger*, if details about an ongoing investigation are prematurely disclosed, such disclosures "would compromise the investigation and might also lead to the destruction of evidence." 626 F. Supp. 2d at 1235 (citing *Douglas Oil Co.*, 441 U.S. at 218-19); see also, e.g., Patel v. United States, No. 9:19-MC-81181, 2019 WL 4251269, at *5 (S.D. Fla. Sept. 9, 2019) (agreeing with the government that disclosure of information "would severely prejudice" its investigation, including by "prematurely disclosing its scope and direction, subjects, and potential witnesses, and could result in the destruction of evidence"); D.E. 80 at 9-10 (disclosure of investigative "sources and methods" "would detrimentally affect this investigation and future investigations").

Although the public is now aware that the government executed a search warrant at the premises owned by the former President and seized documents marked as classified, the affidavit is replete with further details that would provide a roadmap for anyone intent on obstructing the investigation. "Maximizing the Government's access to untainted facts increases its ability to make a fully-informed prosecutive decision." D.E. 80 at 8.

For example,

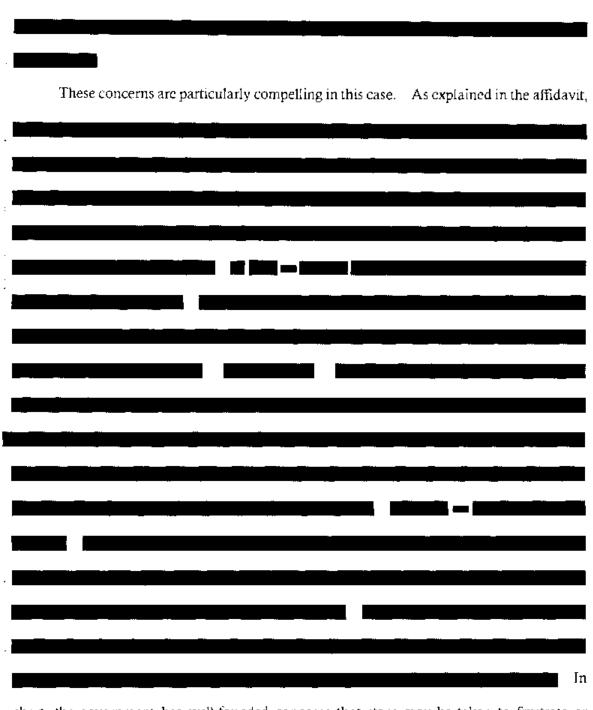

Revealing this information could thus adversely impact the government's pursuit of relevant evidence.²

In addition, revealing this information could severely disadvantage the government as it seeks further information from witnesses. For example,

Additionally, the Court has noted that disclosure of certain information pertaining to physical aspects of the premises could negatively affect the Secret Service's ability to carry out its protective functions. D.E. 80 at 10. Although the Department of Justice is not in a position at this time to assess those potential harms, the information in the affidavit describing physical aspects of the premises fits within the category of information whose disclosure would provide a "road map" of investigative techniques and avenues,

Case 9:22-mj-08332-BER Document 89 *SEALED* Entered on FLSD Docket 08/25/2022 Page 9 of 13

3. Rule 6(e)

The affidavit contains certain information that must be kept under seal pursuant to Federal Rule of Criminal Procedure 6(e) because it may disclose "a matter occurring before the grand jury." Although "Rule 6(e) does not draw a veil of secrecy over all matters occurring in the world that happen to be investigated by a grand jury," it bars disclosure of information that "would reveal something about the grand jury's identity, investigation, or deliberation." Labow v. U.S. Dep't of Justice, 831 F.3d 523, 529 (D.C. Cir. 2016) (internal quotations omitted).

4. Safety of Law Enforcement Personnel

Minor but important redactions are necessary to protect the safety of law enforcement

personnel. See D.E. 80 at 3 (redactions in other materials "are appropriate to protect the identity and personal safety of" an investigative agent). Specifically, information in the affidavit that would identify the affiant, such as by name or through biographical information, see Aff. § 4, should remain under seal.

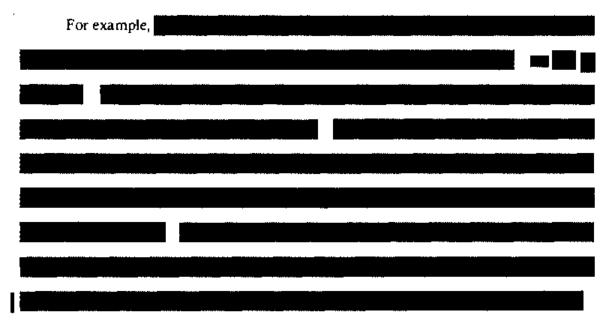

5. Privacy Interests

As the Supreme Court has long recognized, premature disclosure of investigative information creates a risk that "persons who are accused but exonerated" may be "held up to public ridicule." Douglas Oil Co., 441 U.S. at 219; see also, e.g., Steinger, 626 F. Supp. 2d at 1235 (disclosure of names of subjects and of matters being investigated "could have devastating consequences for those persons who have been cleared of any misconduct, as well as for those still under investigation"). The government recognizes that the former President has spoken publicly about this investigation and has said in a public statement that he wishes for the affidavit to be disclosed in its entirety, although the Court has noted that "[n]either Former President Trump nor anyone else purporting to be the owner of the Premises has filed a pleading taking a position on the Intervenors' Motion to Unseal." D.E.

^a Protecting the identities of uncharged individuals is also consistent with government counsel's professional responsibilities. *See* Justice Manual § 9-27.760 ("Limitation on Identifying Uncharged Third-Parties Publicly").

² See Perry Stein & Josh Dawsey, "Trump Wants Mar-a-Lago Affidavit Released, As Some Aides Ponder Risk," Washington Post (Aug. 17, 2022), available at https://www.washingtonpost.com/national-security/2022/08/16/trump-mar-a-lago-affidavit/.

80 at 1-2. Nevertheless, the affidavit contains additional information about others that could harm these individuals' privacy and reputational interests if disclosed.

Conclusion

For the reasons stated herein, the Court should maintain under seal the text the government has marked for redaction. The government defers to the Court to determine whether the redactions are "so extensive that" release of the remainder of the affidavit would "result in a meaningless disclosure." D.E. 80 at 12. Should the Court order disclosure of a redacted version of the affidavit, and if the Court agrees with the government's proposed redactions, the government will submit a final version of the redacted affidavit for public release.

In the interest of transparency, as well as the principle that limitations on public access

to judicial proceedings should be "narrowly tailored," Globe Newspaper Co. v. Superior Court, 457 U.S. 596, 607 (1982), the government respectfully submits that certain portions of this filing may be unsealed, including the introductory segment up through the first two paragraphs in the Argument section on page 4, as well as certain text in the sections that follow describing relevant provisions of law. The government will submit a version of this filing that identifies the portions that can be publicly filed, along with its proposed redactions, forthwith. And with the Court's permission, the government will confer with counsel for the former President as to whether counsel or the former President has any objection to unscaling the letter from counsel included as Exhibit 1 to the affidavit. Absent any such objection, the government supports unsealing the letter.
