Please review the below.

Anchorage School District values the diversity of our applicants, staff, and students and strives to be inclusive in our organization. Our district is among the largest and most diverse in the country. We understand the responsibility we have to teach and model both equity and inclusion to both students and staff. As a district we start by placing a caring and competent teacher in front of every student while honoring the diversity we share among staff and students. We seek to treat everyone with dignity and respect in our pursuit of both educational and occupational achievement for everyone.

We would like to hear your thoughts on the following topics.

✳ What is your definition of diversity? How do you encourage people to honor the uniqueness of each individual? How do you challenge stereotypes and promote sensitivity and inclusion?

Characters Available: **500**

✳ What opportunities have you had working and collaborating in diverse, multicultural, and inclusive settings?

Characters Available: **500**
